

SabiHR - Company Onboarding: User Stories & Use Cases

Overview

This document details the complete company onboarding flow for SabiHR, covering every screen, input field, validation rule, user action, and edge case from initial registration through workspace setup.

The onboarding is split into two phases:

1. **Registration** (/register) — Company account creation, plan selection, payment
2. **Workspace Setup** (/onboarding) — Departments and employee invitations

Phase 1: Registration Flow

US-1: Email Verification

As a new company admin, **I want to** verify my email before registering, **So that** SabiHR can confirm my identity and prevent spam accounts.

Screen: Get Started (Phase 1 - Email Entry)

Field	Type	Placeholder	Required	Validation
Company name	text	e.g. Acme Technologies Ltd	Yes	Must be non-empty after trimming
Email address	email	you@company.com	Yes	Must match /^[^\\s@]+@[^\\s@]+\\. [^\\s@]+\$/

User Actions:

- Fill in company name and email
- Click "Send verification code" to submit
- Click "Back to login" to return to /login

Success Flow:

1. User enters company name and email
2. Clicks "Send verification code"
3. Loading spinner appears on button ("Sending code...")
4. System sends OTP to email (mock: 1s delay)
5. Screen transitions to OTP entry phase
6. 30-second cooldown starts for resend

Error States:

- Empty company name → "Please enter your company name"
 - Empty email → "Please enter your email address"
 - Invalid email format → "Please enter a valid email address"
 - Errors display in red alert box above form
-

Screen: OTP Verification (Phase 2)

Field	Type	Details	Required
6-digit code	6 individual numeric inputs	Single digit each, auto-advance on entry	Yes (all 6 digits)

User Actions:

- Enter 6-digit code (one digit per box)
- Paste a full code (auto-fills all boxes)
- Press Backspace to navigate to previous input
- Click "Verify & continue" to submit
- Click "Click to resend" (available after cooldown)
- Click "Use a different email" to go back

Success Flow:

1. User enters or pastes 6-digit OTP
2. Clicks "Verify & continue"
3. Loading spinner ("Verifying...")
4. System verifies code (mock: 1s delay, any code accepted)
5. Transitions to Company Info step
6. Company name and email carry forward to next step

Edge Cases:

- Paste handling: extracts only digits, fills up to 6 boxes
- Backspace on empty box: focuses previous box
- Non-digit input: rejected silently
- Resend cooldown: "Resend in Xs" shown, counts down from 30
- After cooldown expires: "Click to resend" becomes clickable

US-2: Company Information

As a company admin, I want to enter my company details, So that SabiHR can set up my organization profile correctly.

Screen: Company Information (Registration Step 1)

Field	Type	Placeholder	Required	Options/Details
Company Logo	File upload	Drop or browse	No	PNG/JPG, max 5MB
RC Number	text	e.g. RC123456	No	
TIN Number	text	e.g. 12345678-0001	No	
Company Email	email	info@company.com	Yes*	Pre-filled from verification
Phone Number	text	e.g. 08012345678	Yes*	
Address	text	Street address	No	
City	text	e.g. Lagos	No	

State	select	Select state	Yes*	37 Nigerian states + FCT
Industry	select	Select industry	Yes*	18 industries
Employee Count	select	Select range	No	7 ranges (1-10 to 1000+)

Nigerian States (37): Abia, Adamawa, Akwa Ibom, Anambra, Bauchi, Bayelsa, Benue, Borno, Cross River, Delta, Ebonyi, Edo, Ekiti, Enugu, FCT - Abuja, Gombe, Imo, Jigawa, Kaduna, Kano, Katsina, Kebbi, Kogi, Kwara, Lagos, Nasarawa, Niger, Ogun, Ondo, Osun, Oyo, Plateau, Rivers, Sokoto, Taraba, Yobe, Zamfara

Industries (18): Agriculture, Banking & Finance, Construction, Consulting, Education, Energy & Oil/Gas, Healthcare, Hospitality, Information Technology, Legal Services, Logistics & Transportation, Manufacturing, Media & Entertainment, Non-Profit, Real Estate, Retail & E-Commerce, Telecommunications, Other

Employee Count Ranges (7): 1 - 10, 11 - 50, 51 - 100, 101 - 250, 251 - 500, 501 - 1000, 1000+

Logo Upload Behavior:

1. Click upload zone or drag file
2. File validated: must be image (PNG/JPG), under 5MB
3. Preview shown with filename and size
4. "Change" button to replace, "X" to remove
5. Preview URL created via `URL.createObjectURL` and revoked on change

User Actions:

- Fill in company details
- Upload/change/remove company logo
- Click "Continue" to advance to Plan Selection
- Click "Sign in instead" to go back to `/login`

Error States:

- Missing required fields show red error text below the field
- Errors clear when the field is modified

US-3: Plan Selection

As a company admin, I want to choose a subscription plan and billing cycle, **So that** I can pay for the features my organization needs.

Screen: Plan Selection (Registration Step 2)

Billing Cycle Toggle:

Cycle	Duration	Discount	Badge
Quarterly	3 months	0%	None
Bi-Annually	6 months	10%	"Save 10%"
Annually	12 months	20%	"Save 20%"

Plans:

Plan	Monthly Price (NGN)	Max Employees	Key Features
Starter	2,500	25	Employee records, leave management, basic attendance, self-service portal, email support
Professional (Most Popular)	4,500	250	Everything in Starter + payroll with PAYE, performance management, document management, onboarding workflows, multi-branch, priority support
Enterprise	7,500	Unlimited	Everything in Professional + multi-subsiary, custom approvals, advanced analytics, biometric integration, API access, dedicated account manager, custom integrations

Price Calculation: `Total = monthlyPrice x months x (1 - discount/100)`

Example: Professional + Annually = 4,500 x 12 x 0.80 = NGN 43,200

User Actions:

- Select billing cycle (toggle buttons)
- Click plan card to select (radio-style, one at a time)
- Click "Continue to Payment" to advance
- Click "Back" to return to Company Info

Validation:

- A plan must be selected before continuing

US-4: Payment

As a company admin, I want to make a payment via Paystack, So that I can activate my subscription.

Screen: Paystack Payment (Registration Step 3)

Order Summary (read-only):

- Company email
- Plan name + billing cycle
- Total amount in NGN

Field	Type	Placeholder	Max Length	Format
Card Number	text	0000 0000 0000 0000	19 chars (16 digits + 3 spaces)	Auto-spaced every 4 digits
Expiry	text	MM/YY	5 chars	Auto-formatted as MM/YY
CVV	password	123	3 chars	Digits only, masked

User Actions:

- Enter card details
- Click "Pay [amount]" to process payment
- Click "Cancel Payment" to return to plan selection

Success Flow:

1. User fills in card details
2. Clicks "Pay NGN XX,XXX"
3. Loading state ("Processing...")
4. Payment processes (mock: 2s delay)
5. Transitions to registration success screen

Edge Cases:

- Card number: only digits allowed, auto-formatted with spaces
- Expiry: only digits allowed, auto-formatted as MM/YY
- CVV: only digits allowed, max 3
- All actions disabled during payment processing

US-5: Registration Success

As a newly registered company admin, **I want to** see confirmation that my account is ready, **So that** I can proceed to set up my workspace.

Screen: Registration Complete

Display:

- Green checkmark icon
- "Registration complete!" heading
- "Your company [name] has been registered successfully. Next, let's configure your HR workspace."
- Confirmation email notice: "A confirmation email has been sent to [email]"

User Actions:

- Click "Set Up Your Workspace" → navigates to `/onboarding`
- Click "Skip setup, go to dashboard" → sets `onboardingComplete` flag, navigates to `/dashboard`

Phase 2: Workspace Setup Flow

US-6: Set Up Departments

As a company admin, **I want to** create departments for my organization, **So that** employees can be organized by team.

Screen: Set Up Departments (Onboarding Step 1)

Quick Add Section: Pre-built department buttons for one-click adding:

Department	Click Action
Engineering	Adds with blank head/description
Finance	Adds with blank head/description

Human Resources	Adds with blank head/description
Marketing	Adds with blank head/description
Operations	Adds with blank head/description
Sales	Adds with blank head/description
Legal	Adds with blank head/description
Information Technology	Adds with blank head/description

Button States:

- Available: white background, slate border, clickable
- Already added: blue background, white text, disabled

Department Card Fields (per department):

Field	Type	Placeholder	Required
Department name	text	Department name	Yes
Department head	text	Department head (optional)	No
Description	text	Description (optional)	No

User Actions:

- Click Quick Add buttons to add preset departments
- Click "Add Custom Department" to add a blank department
- Edit department name, head, or description inline
- Click "X" (on hover) to remove a department
- Click "Continue" to advance to Employees step

Display:

- "Your Departments" label with count badge
- 2-column grid on large screens, 1-column on mobile
- New blank departments auto-focus on the name field

Edge Cases:

- Quick Add button disabled if department already added (case-insensitive match)
- Can add multiple custom departments with same name (no uniqueness check)
- At least 1 department should be added before continuing

US-7: Add Employees

As a company admin, I want to invite employees to join my workspace, So that they can access the HR platform.

Screen: Add Your Employees (Onboarding Step 2)

Empty State:

- UserPlus icon with Mail badge

- "Start with your HR staff" heading
- "Add your HR administrator first, then invite the rest of your team."
- Two buttons: "Add Employee" and "Paste Emails"

Employee Card Fields (per invite):

Field	Type	Placeholder	Required	Details
Email address	email	Email address	Yes	Auto-focus on newest blank entry
Department	select	Department (optional)	No	Options from departments added in Step 1. Shows "No departments added" if none exist
Role	select	HR Staff / Role (optional)	Conditional	First employee: only "HR Staff" available. Subsequent: Employee, Manager, HR Admin, Department Head

Available Roles (4):

- Employee
- Manager
- HR Admin
- Department Head

First Employee Restriction: The first employee added (index 0) is forced to be HR Staff. The role dropdown only shows "HR Staff" as an option. This ensures every organization starts with an HR administrator.

Bulk Add (Paste Emails):

Field	Type	Placeholder	Details
Email textarea	textarea	john@company.com , jane@company.com (or one per line)	Accepts comma or newline separated emails

- Click "Add All" to parse and create invites (blank department/role)
- Click "Cancel" to dismiss
- Parsing: splits by commas and newlines, trims whitespace, filters empties

User Actions:

- Click "Add Employee" to add a single blank invite
- Click "Paste Emails" to open bulk textarea
- Edit email, department, role per invite
- Click "X" (on hover) to remove an invite
- Click "Add Another" to add more after the first
- Click "Complete Setup" to finish onboarding
- Click "Back" to return to Departments step

Edge Cases:

- Department dropdown shows departments from Step 1 only
- If no departments were added, dropdown shows disabled "No departments added"
- Bulk add creates invites with blank department and role

- Avatar circle shows first letter of email (uppercase) or index number if no email

US-8: Workspace Setup Complete

As a company admin, I want to see that my workspace is fully configured, So that I can start using the dashboard.

Screen: Your workspace is ready!

Display:

- Green checkmark in light green circle (bg-[#f4fcf1])
- "Your workspace is ready!" (24px, semibold)
- "You've successfully configured your HR workspace. You can always adjust these settings later from the admin panel." (14px, slate-500)
- "Go to Dashboard" button (blue, 362px wide)

User Actions:

- Click "Go to Dashboard" → sets `onboardingComplete = "true"` in localStorage, navigates to `/dashboard`

Complete User Journey Map

```
/register
|
+-- Email Verification
|   |-- Enter company name + email
|   |-- Receive & enter 6-digit OTP
|   |-- [Resend OTP if needed]
|

```

Data Structures

Registration Data

```
// Company Information
{
  companyName: string      // from email verification
  rcNumber: string         // optional
  tinNumber: string        // optional
  email: string            // required, from verification
  phone: string            // required
  address: string          // optional
  city: string             // optional
  state: string            // required (Nigerian state)
  industry: string         // required
  employeeCount: string    // optional (range)
  logo: File | null        // optional (PNG/JPG, max 5MB)
  logoPreview: string      // blob URL for preview
}

// Plan Selection
{
  planId: string           // "starter" |
  "professional" | "enterprise"
  billingCycle: "quarterly" | "bi-annually" | "annually"
}
```

Onboarding Data

```
// Department
{
  id: string              // auto-generated
  name: string            // required
  head: string            // optional
  description: string     // optional
}
```

```
}

// Employee Invite
{
  id: string      // auto-generated
  email: string   // required
  department: string // optional (from added departments)
  role: string    // "HR Staff" (first), or Employee/Manager/HR Admin/Department
  Head
}
```

State Persistence

- **localStorage** **userRole** : Set to "admin" on login
- **localStorage** **onboardingComplete** : Set to "true" when workspace setup finishes or is skipped
- **No server persistence yet**: All data is mock — registration and onboarding data are not sent to an API
